10. Scrubber, click the scrubber, then click the START, adjust energy on the hand pieces.

11. High frequency, turn right of the knob of high frequency, then click the START

12. High frequency, turn right of the knob of high frequency.

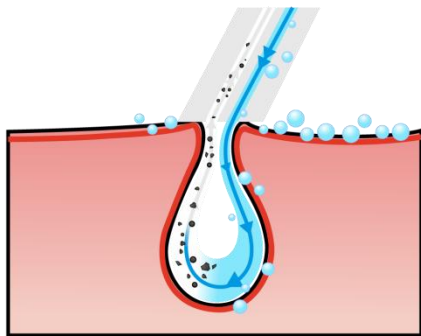

Function

1. Hydro dermabrasion

Hydro dermabrasion – the latest in skincare technology. Hydro dermabrasion utilizes the natural healing powers of water and oxygen to effortlessly exfoliate the skin without the use of hard crystals or abrasive textured wands, generating deeply hydrated and healthier looking skin.

Application:

- 1 Rejuvenate sun damaged skin-face, neck, shoulders, back, arms and legs.
- 2 Reduce age spots
- 3 Minimize of blotchy skin coloring
- 4 Reduce acne and superficial scars from past injury
- 5 Remove blackheads and white heads
- 6 Reduce oily skin
- 7 Improve overall skin health

Dead cells & impurities are vacuumed away

Serum cleanses & hydrates skin

2. Spray treatment

Operating steps

1. Clean skin deeply.
2. Mix 2 ~ 3 drip SPA essential oil diluted with purified water into small cup of the o2 sprayer, water should be about 2 / 3 of the cup, and then tighten the lid tightly. Oxygen sprayer can only with liquid products, other states product will cause pinhole jam.
3. Beautician hold the spray gun, press the control button to release oxygen, And pull backwards to spray water mist.
4. Spray oxygen from top to bottom starting from the forehead to the neck, careful not to spray into the eyes or nose, in the spray oxygen process, the beautician can appease, lift up, stretch wrinkles with the other hand, more helpful for nutrition products penetrate the skin, strengthen skin elasticity, spray rate should depend on the guests' absorb state of oxygen.

Cautions

1. The product should be liquid when using oxygen sprayer.
2. Avoid spraying into mouth or nose when spraying oxygen.
3. Clean the small cup and the pipe inside the sprayer every time use it, to avoid jam.

Clean method:

pour the purified water into the small cup, and press the control button and then pull back towards.

Application:

Supply nutrients and moisture for the skin rapidly, smooth skin, lightening stains, improve chlorosis, dull conditions, make skin rosy, white, transparent, tender, tightening indeed, with special spa oils will be better.

3. Diamond dermabrasion

Operating steps

1. Clean skin and make it dry.
2. Turn Vacuum adjusting knob to regulate the vacuum pressure. According to the hip, turning it to the clockwise is MAX, turning it to the counter clockwise is MIN. The beautician should consider then using part and make sure the guests can accept the pressure.
3. Confine the treatment area, and beautician hold the diamond dermabrasion handle to move closely on skin back and forth, with the finger moves with it.

Cautions

1. Do not to use when there is sensitive skin, swelling, injury, inflammation.
2. Keep your skin in a good condition after treatment, use care products which are gentle and no harm, pay more attention to sun block.
3. Do not do shaving or use scrub until three days later. Another diamond dermabrasion care must be in 30 minutes later.

*** Vacuum pen**

Vacuum pen is use vacuum/suction to suck the blackheads from the pores , makes our pores more cleaner.

And our vacuum pen is in new technique that can be massage our skin during working , because it is not always in suction, it will suck on and off , good for lymphatic drainage and active our cells.

4. Skin scrubber

use of ultrasonic technology will change to 28000 times per second of electric shock waves to 28000 times per second of mechanical vibration wave the muscles of the body to me have osmosis. Can make skin more deep cells produce excited, so long as you use this instrument is used together with the corresponding potions or essence effect, can quickly eliminate shading wrinkles whelk courteous layer, able to pore dirt thoroughly clean skin, make skin shining white, recover the flexibly.

Clear cutin dead skin

Deep clean blackheads

Ultrasonic ically of nutrition

5. Line

Micro current is a safe and effective technology for clients who wish to attain maintain a healthier and younger looking appearance.

Benefits:

- Non-invasive facelift
- Reduce and eliminate fine lines and wrinkles
- Improve skin circulation
- Improve hyper pigmentation and acne
- Increase product penetration

6. Photon light (PDT)

The general introduction of PDT:

Praised as "Magic light", Photon dynamical instrument is a biological active cold light, and not produce heat. It applies low-energy and unique optical technology to skin care and treatment, natural and gentle; has prominent effects, low Lethal and no side effect. It's skin nurse specialist, is fit for all kinds of skin, especially useful for seriously irritated skin, acne skin and has notable effect for those in sub healthy state to recover and do skin protection and treatment. Photon dynamical nurse therapy is a new technology, using the photon power to do skin maintenance and treatment, transfer light energy to cell energy, then accelerate cell growth and blood circulation, stimulate fiber cells to produce collagen proteins, increase skin elasticity and take important part in rehabbing aging and acne skin, lightening flecks, skin upgrade and tighten and easing burnable skin.

Application:

1. Improve symptoms such as aging and loosening skin, big pore, slender wrinkles.
2. Improve pigmentation pathological changes, such as freckle, sunburn, senile plaques.
3. Improve dark complexion caused by bad metabolism or poor circulation.
4. Repair and nurse the damaged skin.
5. Do detumescence, inflammation diminishing and scar elimination treatment for oil acne effectively

7. High frequency

High frequency function is beauty salon acne-prone skin treatment good assistant of the high frequency current heating can penetrate the skin fiber, promote the blood circulation, help skin absorb nutrition, eliminate waste, the heat can relax nerves, helping solvents penetrate the skin, reduce skin secretion, and sterilization, the role of promoting wound healing, effect is remarkable.

1. use a special ultraviolet radiation for local or punctiform light, have antiseptic effect, accelerate style skin wound healing.
2. remove surface spots, acne and treat black spots.

8. Ultrasonic

Features:

- 1) Ultrasonic waves with deep penetration are produced by high-frequency oscillation of 1 million times per second. It is a kind of special instrument that emits a kind of waveform that can be transmitted by surrounding medium. It has more powerful energy than ordinary sound waves. It has high frequency, good directionality, strong penetrability and large expansion force. .
- 2) Due to the strong high-frequency oscillation, it can soften and massage the skin cells, promote the blood circulation of the human micro-vessels, accelerate the metabolism and activate the skin cells, and help absorb nutrients
- 3) Skin high-frequency micro-massage, can also eliminate the aging cells and discharge toxins to reduce wrinkles, with a variety of beauty products or medicines, can achieve a variety of problems skin treatment, improvement.
- 4) The safe frequency of ultrasound can also cause the resonance vibration of the cells themselves, consume fat and improve cell water absorption and water saturation, so that the skin can restore clear gloss and elasticity.

5) Ultrasonic high-frequency micro massage can eliminate the aging cells and discharge toxins to reduce wrinkles. If combined with other cosmetics or medicines, it can achieve various problems of skin treatment and improvement.

9. Micro Needle

Micro Needling Machine provides a safe, skin renewal technique.

The process uses fine needles to create micro wounds which triggers the production of capillaries, elastin, and collagen. Also known as skin needling or collagen induction therapy, the result is healthy, youthful skin that can be enjoyed by all skin types. Skin rejuvenation, increases the effectiveness of treatment by increasing absorption of products.

Treatments:

- Aging skin, fine lines and wrinkles
- Alopecia
- Cellulite
- Enlarged pores
- Hyperpigmentation
- Scars – acne, chicken pox, stretch marks
- Sun damage
- Non-surgical face lifts
- Skin tightening, skin resurfacing, skin rejuvenation

10. Bubble Pen

Clear skin debris, ultra-fine bubbles can deeply clean the face, remove aged keratinocytes, remove sebum, and do not cause pain.

At the same time, the reactive oxygen species released by tiny bubbles can bring anti free radical effects to the skin, thereby inhibiting skin aging.

Deeply nourish the skin, unblock pores, and directly provide effective nutrition to the deep skin, helping to restore moisture and elasticity.

11.Cold & Hot

It is very gentle, made the sensitive skin a ice cool feeling, remove the red spots, calm and release the pains. Massage the face muscles according to grain on the face(move slowly in straight line or in circle).

Application:

Calms and soothes, promotes circulation,shrinks, reduces dark circles and bags under the eyes.

12. RF

Tripolar RF facial lifting is a non-surgical, non-invasive cosmetic technique that safely and effectively improves the health and appearance of the skin.

Tripolar RF facial lifting uses technologies developed in the medical and physiotherapy fields to activate the skin's natural chemicals responsible for health and vitality.

Parameter

Vacuum	≥100Kpa
Energy	Level 1-10
PDT	Red , Green , Blue, Yellow
Working Frequency	50-60Hz
Power	120W
Voltage	110VAC/60Hz, 220VAC/50Hz
Max output	250VA
Operate	15.6 inch Touch screen
Size	55×41×108 cm
Weight	N.W: 33kg
Warranty	One year for main machine and 3 months for spare parts

Symbols and their meanings

Warning Symbol	Meaning
 Warning	If used incorrectly will cause possibility ill of death or serious injury!
 Danger	Device exists high pressure risk of high voltage output terminals!
	Refer to the manual
	Prohibited Acts

*Things damage refers to housing, property, livestock and pet damage.
